

HOSPICE CARE

Providing end of life care with dignity

Hospice care is a compassionate approach to caring for those who are faced with life-limiting illness. We have partnered with Calvary Hospital Hospice, the premier hospice service provider in New York, to provide the best quality of life possible at Lutheran Augustana Center for someone who is terminally ill.

Hospice care is the comprehensive management of physical, social, spiritual, and emotional needs of an individual with an incurable, progressive illness. Hospice care is delivered by our interdisciplinary team composed of health care professionals and trained volunteers. During the course of care for the seriously ill individual, the well-being of family members or the informal caregiver is also of paramount importance. Lutheran Augustana Center's staff are dedicated to deliver the quality care and support necessary during this difficult time.
